[www.fedart.org](http://www.fedart.org)

Staying true to its founders, the Federation of Modern Painters & Sculptors presents “Annual Members’ Exhibition”. This year’s summer exhibition celebrates the vitality and energy of this diverse group of artists with a renewed attention to sculpture and mixed media.

This is the third consecutive year for the Federation to be showing at the Prince St. Gallery, two organizations devoted to sustained exploration of unexpected and sometimes diverging paths. In each case, one can never be sure what riff, what vein, what pulse, what feeling will surprise the gallery visitor. There are surprising interconnections to be found when individual artists choose to come together.
